

Please do not invalidate the Wisconsin No Call List. Receiving unsolicited phone calls from vendors of any kind is an unwelcome invasion. If I want to conduct business with a company, I want to initiate that contact myself. I realize charitable organizations are exempt from this policy, but my sentiment regarding those calls is the same as contact from a business for profit. I will never respond positively to telephonic solicitation, of any kind, and I do not want those calls placed to my phone number.
